

You've got mail

## Description

**The Mailroom at Medscheme is revolutionising package delivery and mail management, especially across office locations with diverse needs.**

In the age of digital transformation, the need for innovative solutions in everyday business operations is ever-growing. This is why The Mailroom team across Durban, Vereeniging, Cape Town and Roodepoort have gone through a renaming process.

default watermark

Our teams will continue to courier, make deliveries and post, but will also assist business units correspondence channels and a new way of work. The team, which is part of the Branch Network team, will now be known as Branch Network Administrators. This renaming was essential for AfroCentric as we look to optimise operations and elevate our mail management systems.

The team's contact information remains the same and the contact details of team leaders Muzi Khumalo and Philani Manyoni can be found on the Outlook address book.
