

The strongest link

Description

To deliver excellent service to our clients, our teams must work together and respond with agility to our changing business needs, ensuring each one plays their part and every link in the chain is strong.

The GEMS Contribution and Debt Management Team strengthened their bond during a recent team building event at Soweto Towers CHAF/POZI, enhancing their communication and trust in each other to fuel their success.

The day was filled with laughter, learning and connection through exciting activities such as paintball, quad biking, a tuk-tuk tour, bungee jumping, and go-karting.

The team lives by the motto “Building Value through Wellness and Integrity”, which reflects their commitment to supporting each other’s wellbeing, working with ethical principles, and contributing to sustainable value creation for the business and communities they serve.

“We support one another by encouraging open communication, promoting accountability, and celebrating each milestone together. Moments like these remind us that together we can achieve anything. Here is to stronger bonds, fresh ideas, and a team spirit that keeps us moving forward!”

says Khethiwe Khumalo, Credit Controller on the team.
