

Know our AfroCentric brand

Description

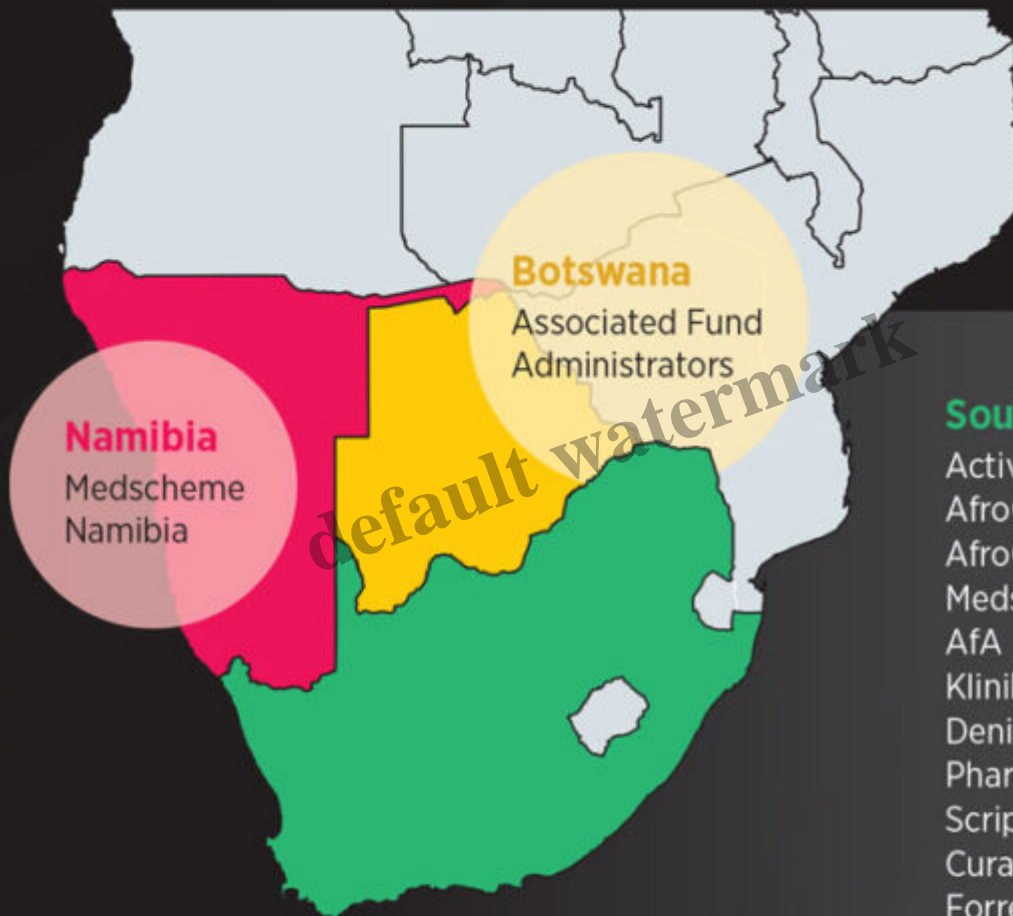

The AfroCentric Group is Southern Africa's largest, most diversified and seamlessly integrated healthcare company. Listed on the JSE in 2008, AfroCentric focuses on making a sustainable impact where it knows best – in healthcare.

The Group does this by increasing access to affordable and quality healthcare through its subsidiaries and by offering a range of complementary solutions to its clients in both private and public sectors, across the healthcare value chain. From health administration and managed care, pharmaceutical solutions and corporate solutions, AfroCentric's holistic involvement ensures that every point along the care continuum is meaningfully addressed, delivering on our promise of holistic wellness at every stage of life.

Together with Sanlam, AfroCentric is re-imagining the future of healthcare anchored by a bold, refreshed vision – to pioneer access to inclusive, seamless and quality healthcare through sustainable healthcare models for all Africans.

Healthier Together

Health Administration and Managed Care Solutions

As the largest managed care and health administration organisation in the country and the second largest medical scheme administrator, we protect more than four million lives while making world-class healthcare accessible to all.

- 39% market share.
- Positive membership growth.
- Cutting-edge digital and tech advancements to stay ahead in an ever-changing healthcare landscape.
- Transforming care delivery to a value-based model.

Pharma Solutions

World-class manufacturing, distribution, marketing and retail services for medicine and pharmaceutical products through our end-to-end value-chain capabilities.

- SA's largest courier pharmacy.
- Medicine spending can be fully managed.
- Reduce overall healthcare spending and improve savings for medical schemes.
- Oncology medicine management.
- Risk management and pharmaceutical value chain optimisation through a integrated approach.
