

## Sanlam Gap shows its worth

### Description

**Year after year, the team at Sanlam Gap excel. By delivering a reliable way to cover medical scheme shortfalls, they have grown the member base to more than 30 000 policyholders.**

#### What is Sanlam Gap?

This short-term insurance product provides an extra layer of financial protection for those who already have medical aid. It helps to cover certain shortfalls between what a medical aid scheme will pay and the rates charged.

In 2022, Sanlam Gap's average amount paid per claim was R12 206.00, with single delivery by caesarean section being the average claims event. The highest claim paid last year was R125 543.40 for a procedure related to chronic sinusitis.

Product innovation and, most importantly, listening to members has ensured that once a client signs on to Sanlam Gap, they'll be pleased with the benefits and customer-centric support services.

#### What sets Sanlam Gap apart from competitors?

Whether you're on Bonitas, Fedhealth or staff of AfroCentric, you'll qualify for fantastic discounted rates. No need to submit shortfall claims either – Sanlam Gap has a seamless claims process between Bonitas and Fedhealth that will take the hassle out of the claiming process.

Already a member? Ask about the unique new Mediclinic Extender option.

#### Want to know more and become a member?

Mail [crezentia.seepolle@sanlam.co.za](mailto:crezentia.seepolle@sanlam.co.za). Crezentia will guide you through all the details and benefits in no time at all.

**Join Sanlam Gap to understand why more than 30 000 people have given them the thumbs up!**
