

Vision 4 Change 2023 Durban

Description

The AfroCentric Group was in KwaZulu-Natal on 10 November with non-profit organisation Vision 4 Change to embark on the 'Vision is Vital' campaign. We hosted a fitment day at two underprivileged schools around the Umlazi area in Durban.

Learners at Kethamahle and Thandokuhle primary schools were provided with prescription spectacles, according to each learner's specific needs. Eye testing and screening took place during the month of September.

Vision 4 Change has been a long-standing beneficiary of the AfroCentric Group since 2017, benefitting hundreds of learners across the country.

May this gift of sight empower our kids to be excited about learning – to be curious, to be hungry and to imagine and see a future where there are no limits to what they can achieve!
