

More than just IT

Description

In today's workplace, information technology (IT) is the cornerstone of many of our operations. We often work on systems and documents without realising how much is happening behind the scenes. The Workcare IT team's dedication and pro-active approach has not gone unnoticed.

Sipho Baba, Junior Business Analyst and Mammoth Accounts Manager at AfroCentric Workcare, took a moment to celebrate the Workcare IT team, who exemplify our values of going the extra mile and thriving together.

"Over the past months, they have truly exemplified teamwork and dedication, going above and beyond to ensure the success of our business unit. The Workcare IT team has consistently demonstrated a collaborative spirit, working seamlessly together to overcome challenges and deliver innovative solutions," Sipho says.

The team's commitment to excellence and their tireless work ethic have been instrumental in keeping Workcare's IT systems running smoothly and efficiently – from troubleshooting technical issues to implementing new processes and upholding customer-centricity.

"I believe that recognising their hard work and dedication is crucial, and I would like to formally celebrate them for their outstanding contributions. Their efforts embody the values of the AfroCentric group, and I am proud to be part of them," Sipho adds.

CELEBRATING OUR PEOPLE
