

Supporting breastfeeding mothers

Description

Our Mommy Rooms are designed to provide a comfortable and private space for nursing mothers to express breast milk during work hours.

The rooms are equipped with a refrigerator, a sink, a comfortable chair, a table, and a power outlet. The rooms can accommodate one user at a time and are available on a first-come, first-served basis. We understand that returning to work after having a baby can be challenging. We hope that this new facility will help make the transition easier for our nursing mothers. These facilities support the Company's parenting programme and will contribute positively to the health and wellbeing of employees and their families.
