

More than a boss

Description

Working in an environment where everyone is valued and nurtured to grow into their best selves is a part of our AfroCentric culture.

Marjorie Grobler, Team Leader: GEMS Mental Health (Case Management), has earned her team's appreciation for her exceptional leadership, hard work and dedication to their success.

"I feel lucky to have a leader like you who cares about my development. Your guidance makes work feel less like a job and more like a place to grow. You are such a supportive leader and bring out the best work in each of us as a team."

Kgotso Madondo, Specialised Case Manager
GEMS Mental Health (Hospital Event Management)

Marjorie was praised for her empathy and taking the time to hear her team's ideas. "It's a great pleasure to work in an environment where everyone's opinions and ideas are valued. You are such a wonderful mentor – you are more than a boss."
